PRODUCT CATALOG

SPRINGFIELD ARMORY®

It takes a lifetime to build a legacy. It takes discipline to protect it. Shaped by an unrelenting commitment to craftsmanship and legendary customer service, Springfield Armory® has grown to become the premier manufacturer of quality firearms. The leading maker of our country's iconic 1911, 911 and M1A™ models, the exciting SAINT® series of rifles and pistols, the custom-grade Model 2020 bolt-action family of hunting rifles, and a pioneer in today's most trusted striker-fired solutions, every Springfield Armory firearm and accessory is built on a foundation of excellence. Anchored by our rich history and inspired to break new ground, our proudest legacy is giving you the tools to defend yours.

HELLCAT[®] MODELS

SPRINGFIELD ARMORY
AND YOUR LEGACY

The Springfield Armory[®] Hellcat[®] is a paradigm-shifting concealed carry handgun that packs up to a full 13+1 rounds of 9mm into a space previously reserved for pocket guns. The Hellcat, is now offered in the Rapid Defense Package (RDP[™]) configuration. Paired with a HEX[™] micro red dot and a Self Indexing Compensator the Hellcat RDP delivers fast target acquisition and rapid, accurate follow-up shots. Also new on the Hellcat RDP is an optional ambidextrous manual safety and the Gen 2 trigger with enhanced ergonomics.

XD^M ELITE *FULL SIZE MODELS*

The polymer platform that broke the mold is now built around the all new META™ trigger for the ultimate performance in a striker-fired firearm. Further enhanced with removable magwell, increased capacity of 22+1 (20+1 with short magwell models) and improved slide serrations, the new XD-M® Elite represents the pinnacle of full-size, polymer-framed pistol design.

Featuring the META (Match Enhanced Trigger Assembly) system, the XD-M Elite trigger sports a flat face, crisp break and integral overtravel stop that combine to deliver the best trigger in a factory polymer-framed pistol available on the market.

The XD-M Elite has superior ergonomics, reliable performance, and features that make it easy and intuitive to use. Upgrades like an extended and flared magwell, ambi slide stop and enhanced slide serrations make the Elite a must-have option. It's also got a whopping 22+1 capacity (20+1 with the “short” magwell).

SA★35™

It's had many names in its century-old history and today, we reimagine this renowned design for modern use. Based on one of the most prolific and popular pistols in small arms history, the Springfield Armory® SA-35 gives today's shooters a modern take on a revered design. Featuring subtle but significant upgrades to John Moses Browning's original P-35, the 9mm SA-35 captures the appeal of the "wood and steel" era of arms making while offering the upgraded enhancements of today's defensive pistols.

Made in the U.S.A., the SA-35 features rugged forged steel parts for strength and durability, improved ergonomics and enhanced controls, modern sights, an improved feed ramp design, and an increased 15-round capacity. Configured without a magazine disconnect for a drop free magazine the SA-35 features a factory-tuned trigger with a smooth pull and crisp, clean break.

Call it a legend, call it an icon, but whatever you do, don't call it a classic.

1911

Featuring forged frames and slides for the strength required to deliver a lifetime of service, a Springfield Armory® 1911 is the only option for those in the know. With a broad line of offerings ranging from the compact EMP® pistols to the full-size TRP™ pistols designed for tactical applications, there is a 1911 here for practically any mission. Built on a foundation of excellence to deliver cutting-edge performance, Springfield Armory's 1911 family stands ready to deliver.

1911 Series

MIL-SPEC MODELS

Built on a forged frame and slide the Mil-Spec carries on Springfield Armory's long legacy of quality 1911s. Traditionally styled and built on a full-size frame the Mil-Spec features a 5" match grade barrel and rear slant serrations on the slide. The mainspring housing is the original arched style found on G.I.-issue 1911-A1s, giving you a classic look with modern upgrades for improved performance and reliability.

For those who demand a quality, authentic 1911 the Mil-Spec offers exceptional value and an undeniable pedigree.

RONIN™ MODELS

Featuring an unyielding commitment to strength, reliability and quality, the Ronin® 1911 combines a legacy of service with the features modern shooters demand.

Strength is a core element of the Ronin line, with all models offered featuring forged steel slide, hammer-forged barrels and forged frames. The steel slide features a beautiful hot salt bluing finish that contrasts nicely against the forged stainless steel frame of the 5" model and the forged alloy frame of the 4.25" and EMP model, the latter of which features a satin aluminum Cerakote® finish.

Designed and built for a lifetime of service, the Ronin family of pistols offers 1911 enthusiasts a highly refined handgun with unparalleled durability and strength.

Our custom pistolsmiths have over 200 combined years of experience building custom pistols in this very shop; many of whom are distinguished members of the American Pistolsmith Guild. Our products are used by professionals all over the world in military and law enforcement groups, some large, some small, and some we can't mention. Our competition pistols have been used to win national and world championships in every major pistol discipline by such greats as the legendary Rob Leatham, John Farley, the late Alan Fulford and the late Roger Willis, just to name a few.

HAND PAIRED COMPONENTS

Every part on a Springfield Armory Custom Shop 1911 is hand selected and assembled to create one of the most prestigious 1911 pistols known to man. Countless hours are spent meticulously perfecting every detail to ensure the pistol has the tightest tolerances for unmatched reliability and accuracy.

SAINT®

The SAINT® series of rifles are built with quality components where they matter most and is the foundation of Springfield Armory's AR-15 lineup.

SAINT VICTOR®

Offering lightweight and agile solutions in both rifle and pistol configurations, the SAINT® Victor series comes packed with enhanced components selected for rugged durability.

SAINT EDGE®

The most premium SAINT® in the lineup, the Edge features a billet receiver paired with premier components for quick-handling and improved accuracy and is comparable to custom builds costing much more.

Put your money where it matters — SAINT[®] rifles and pistols from Springfield Armory[®] offer outstanding value in an AR-15 platform with top-tier core components selected for rugged dependability and relentless performance. M-Lok[®] compatible and chambered in 5.56 NATO, SAINT rifles and pistols are available in a variety of configurations. If you're in the market for a formidable self-defense weapon, our SAINT rifle fits the bill without breaking the bank.

SA MID-SIZE CHARGING HANDLE

ACCU-TITE™ TENSION SYSTEM

With premium components and upgrades, the SAINT[®] Edge features a billet receiver paired with premier components for quick-handling, improved accuracy and is comparable to custom builds costing much more.

The all new SAINT[®] Edge ATC (Accurized Tactical Chassis) is a precision-built platform for uncompromising accuracy. Employing a patented, monolithic lower chassis, the SAINT Edge ATC's lower receiver and integral handguard allow for a 100% free-floated barrel. This unique approach eliminates the stress on the barrel nut inherent in other designs and unlocks the accuracy of the AR-15. Offered with an 18" barrel and chambered in .223 Wylde, the SAINT Edge ATC sets the new standard for precision-minded shooters and is backed by our Sub-MOA Guarantee.

M1A™ STANDARD ISSUE

The Standard Issue M1A™ is a faithful semi-auto recreation of the original M14.

M1A™ SCOUT SQUAD™

Combining the legendary power and accuracy of the M1A™ with the quick handling and fast sight acquisition of a scout style rifle.

M1A™ SOCOM 16

In both tactical and traditional forms, the SOCOM 16 will answer your call for a compact tactical rifle without sacrificing power.

M1A™ LOADED

A traditional M1A™, loaded with all the features you want to take your rifle to the next level.

STANDARD ISSUE *MODELS*

From 1959 to 1970 the United States M14 served with distinction as the standard-issue rifle of the United States military. When Springfield Armory® made the civilian-legal variant, the M1A™, available to the United States public in 1974, customers were finally able to enjoy the rifle inspired by what so many servicemen had used in the past.

Available in both wood or composite stocks, the Standard Issue is a faithful semi-auto recreation of the original M14. It's equally suited for a day at the range as it is in your collection. All the design features that the Armed Services found essential for a battle rifle make the Standard Issue M1A a historic firearm to add to your safe.

SCOUT SQUAD™ MODELS

Sometimes you need something a little different. A full-sized rifle can be a tight squeeze in your truck or in heavy brush. The Springfield Armory® Scout Squad™ combines the legendary power and reliability of the M1A™ with quick handling and fast sight acquisition.

With a barrel shortened down to 18 inches, the Scout Squad provides the maneuverability you need whether hunting in thick cover or as a rifle that will be your constant companion.

BOTH WINDAGE & ELEVATION

SOCOM 16 MODELS

Prior to Springfield Armory® introducing the SOCOM 16 in 2004, .308 WIN power in a package this small was previously thought of as impossible. Our engineers accepted this challenge and built a compact tactical rifle ideal for CQB. Those who need a compact rifle no longer have to settle for a smaller caliber, and with the M1A™ SOCOM 16's unique muzzle design, they can experience less felt recoil and muzzle rise.

A modernized descendant of the distinguished M14 and M1A rifles, the SOCOM 16 CQB is designed for serious defensive use as its Close Quarters Battle name implies. Nearly ten inches shorter than the M1A standard model, the CQB offers quick and easy handling for defensive use indoors or out.

2 STAGE TRIGGER GROUP

XS POST WITH TRITIUM INSERT,
.125 BLADE FRONT SIGHT

ENLARGED MILITARY APERTURE .135 WITH MOA ADJ
FOR BOTH WINDAGE & ELEVATION

As the M14 platform began to dominate competitive rifle shooting, several performance-oriented upgrades to the design gained popularity. Today, shooters who want the extra features can find what they need in the Springfield Armory® M1A Loaded Series.

It combines the appearance and tradition of the Standard M1A™ with all the features you want in a high-performance rifle... a medium-weight premium air-gauged National Match (NM) barrel for greater accuracy, an NM tuned 4.5-5lb, two-stage trigger, NM front sight blade and a non-hooded NM rear aperture for precise target acquisition.

LOADED MODELS

The Loaded M1A is available in 6.5 Creedmoor. With high muzzle velocity, low recoil, and extreme long-range accuracy, the Creedmoor round provides a well-balanced and precise tool for marksmen eager to raise their long-distance performance.

The Loaded PAS (Precision Adjustable Stock) allows for further customization of the Loaded rifle.

The PAS is made of a lightweight carbon fiber reinforced polymer stock, which allows shooters to adjust for length of pull. For maximum comfort, the PAS also features an adjustable cheek piece to accommodate your optic of choice, and a pistol grip for added control and accuracy. Complete with a Picatinny rail for a bipod, the PAS is the quickest, most effective way to maximize your M1A's™ precision and performance.

HEX WASP

GE5077-MIC | MSRP: \$299

Designed for low-profile, direct mounting, the HEX™ Wasp™ is perfectly suited for compact applications like today's concealed carry pistols and offset rifle mounting. The Wasp is always powered and features an auto-dimming sensor which regulates proper dot brightness based on ever changing ambient light conditions. Precision machined from 6061 T6 Hardcoat anodized aluminum and outfitted with a scratch resistant, anti-glare glass lens, the HEX Wasp is a rugged, reliable companion for your optics ready everyday carry.

HEX DRAGONFLY

GE5077-STND | MSRP: \$249

The HEX™ Dragonfly™ is our most versatile reflex sight and is perfectly suited for pistol, rifle, and shotgun applications. Manual brightness adjustment of the 3.5 MOA dot offers maximum control and the 16 hour auto-off feature prevents your battery from draining if you accidentally leave it on. Precision machined from 6061 T6 Hardcoat anodized aluminum and outfitted with a scratch resistant, anti-glare glass lens, the HEX Dragonfly is a durable, standard size reflex red dot that delivers lightning-fast target acquisition and faster follow up shots.

3.5 MOA RED DOT

The perfect size for both fast acquisition and pinpoint accuracy.

RUNTIME

The Wasp™ will run over 65,000 hours on its lowest power setting.

IPX7 WATERPROOF

Weather the storm knowing your HEX™ optic is waterproof and built to withstand the elements.

3.5 MOA RED DOT

The perfect size for both fast acquisition and pinpoint accuracy.

RUNTIME

The Dragonfly will run over 100,000 hours on its lowest power setting.

IPX7 WATERPROOF

Weather the storm knowing your HEX™ optic is waterproof and built to withstand the elements.

SPRINGFIELD MICRO FOOTPRINT

Made popular by the Hellcat®, the Springfield Micro™ footpring is the standard for concealed carry optics. (Shield RMSc Footprint)

SPRINGFIELD STANDARD FOOTPRINT

The most widely used footprint, the Springfield Standard™ Footprint provides a secure foundation and is compatible with a wide array of aftermarket mounts and accessories. (Vortex® Venom® / Burris® Fastfire™)
